The Business Value of the OSPO

OSPOs are built to help students and researchers create and advance open source projects for widespread use.

OSPOs are used to produce knowledge for social good through open access to research.

OSPOs drive compliance, standardization, reputation, knowledge sharing, development speed, security, and sustainability.

ACADEMIC OSPO VALUE

OSPOs drive compliance, standardization, reputation, knowledge sharing, development speed, security, and sustainability.

BUSINESS OSPO VALUE

Many OSPOs start by cleaning up past ad-hoc open source efforts.

The most common internal OSPO challenges include culture, education, defining and measuring success.

The top KPIs that OSPOs measure include sustaining contributors and project success.
